

# KIT0015

Sleek and compact, designed for 48V TRACCIA48 track lighting systems. With its minimalist design and integrated opal diffuser, it provides a soft, uniform light ideal for modern architectural and display lighting applications. This model delivers a warm white light at **3000 K**, ensuring a comfortable atmosphere while maintaining excellent color accuracy, thanks to a CRI of 90. The opal screen reduces glare and enhances visual comfort, making it well-suited for spaces that require high-quality ambient lighting.
